PROFESSIONAL SUMMARY

Staff Software Engineer at Lockheed Martin and founder of Qavren Solutions LLC, with 12+ years of enterprise experience specializing in the Microsoft technology stack. I have built production systems across the full Microsoft ecosystem: C# / .NET back-ends, ASP.NET Core REST APIs, SQL Server databases, Azure cloud services, WPF desktop applications, Angular front-ends, and SSIS / SSAS data pipelines. Most of my professional career has been in Angular and ASP.NET shops, serving as a lead engineer and architect on complex defense and enterprise systems. Since 2026 I have also run Qavren Solutions, where I ship a portfolio of products on .NET 10, Next.js, and PostgreSQL and built the auth, data, and release platform underneath them. I hold an Arcitura Certified SOA Architect certification and a Microsoft Technology Associate credential. Clean architecture, well-structured data, and systems built to last are what I care about most.

WORK EXPERIENCE

Qavren Solutions LLC — Connecticut

May 2026 - Present

Founder & Head of Software

Founded a Connecticut software company and run product and engineering as one of two Managing Members. Contributed a pre-existing portfolio of product IP at formation; the roster now spans 3 flagships, 16 products, and 6 experiments across legal-evidence RAG, content automation, mobile, and fintech, with 8 live on public hosts. Built the shared platform underneath them: Qavren Auth (self-hosted Keycloak, one realm per app, SDKs published to npm, PyPI, and NuGet), Qavren DB (one Postgres project with a schema and login role per app), Qavren Nexus (.NET 10 release console that dispatches GitHub Actions deploys and tracks status through HMAC-signed callbacks), and Qavren Swarm (open-source MCP server that runs coding agents in hardened, read-only Docker sandboxes and returns a reviewable diff).

Stack: .NET 10, Next.js, React, TypeScript, PostgreSQL, Supabase, Keycloak, Docker, AWS, Terraform, Cloudflare, GitHub Actions

Lockheed Martin — Shelton, CT

Dec 2020 – Present

Staff Software Engineer (May 2022 - Present)

Spearheaded ground-up development of a web-based IETM platform for the F-16 fighter aircraft, replacing legacy documentation workflows with a browser-native, containerized solution. Maintained a 95% on-schedule delivery rate while meeting defense-grade quality thresholds. Drove a 50% reduction in post-merge defects through structured code review practices.

Stack: Angular, ASP.NET Core, C#, AWS, Node.js, SQLite, PostgreSQL, Docker, GitLab, YAML

Senior Software Engineer (Dec 2020 - May 2022)

Architected a disconnected desktop IETM for the HH-60W Combat Rescue Helicopter with real-time bidirectional sync to cloud-hosted USAF IMDS via SymmetricDS. Led a cross-functional team of 10 engineers, driving a 20% productivity gain. Authored coding standards adopted across a 30-engineer shared monorepo.

Stack: WPF, C#, XAML, SQL Server, SQLite, SymmetricDS, Jenkins, Bitbucket, Azure

Flexi Software — Shelton, CT

Jul 2020 - Dec 2020

Software Architect

Sole principal engineer on a cloud-hosted SaaS license authorization and distribution platform, taking the system from concept to production. Produced complete technical specifications and coordinated a distributed team of 15+ engineers across 3 locations, 2 countries, and 2 time zones.

Stack: ASP.NET Core, C#, Azure, Azure DevOps, C++, WPF

Sila Solutions Group — Shelton, CT

Sep 2016 - Jul 2020

Sr. Specialist, Software Engineering & Integration, DevOps

Embedded consulting engineer at Lockheed Martin / Sikorsky Aircraft on the HH-60W Combat Rescue Helicopter IETM across a 4-year engagement. Introduced agile development practices that delivered a measurable 15% improvement in team throughput and delivery predictability.

*Stack: WPF, C#, XAML, SQL Server, SQLite, SymmetricDS, Jenkins, GitLab***Emerson Process Management** — Watertown, CT

May 2014 - Sep 2016

.NET Developer

Owned feature development and maintenance of Catapult, a proprietary EAM platform serving oil and gas reliability clients. Engineered a RESTful Web API layer deployed to every installation, and architected a KPI analytics web application using MVC5, Entity Framework, and n-tier architecture patterns.

*Stack: C#, ASP.NET MVC, Web API, SQL Server, WinForms, Entity Framework, jQuery, Bootstrap***SMC Partners, LLC** — Healthcare Consulting

Jan 2013 - Jun 2014

Computer Programmer / Analyst

Led development of a C# / ASP.NET web application replacing an end-of-life VB6 QA auditing system at Connecticare (CT), with role-based security and stored procedure-driven data access. Supported data warehouse implementation and SSRS report rationalization at Hometown Health (NV), consolidating a fragmented reporting estate by 40%.

*Stack: C#, ASP.NET, WCF, SQL Server, SSRS, jQuery, AJAX***TECHNICAL SKILLS**

Microsoft Stack	C# / .NET, ASP.NET Core / Web API, SQL Server, Entity Framework Core, WPF / XAML, Azure Cloud, Azure DevOps
Frontend	Angular, TypeScript, React / Next.js, CSS / SCSS / Bootstrap
Data & BI	SSIS / SSAS, Tableau
DevOps & Cloud	Docker / Containers, Jenkins / GitLab CI
Full Stack	C#, .NET 10, ASP.NET Core, Azure, Azure DevOps, SQL Server, Entity Framework Core, Angular, TypeScript, React, Next.js, WPF, XAML, SSIS, SSAS, SSRS, Tableau, ML.NET, Docker, Kubernetes, Jenkins, GitLab, GitHub Actions, Microservices, SOA, REST APIs, SignalR, Service Bus, Key Vault, Bootstrap, Tailwind CSS, SCSS, xUnit, NUnit, Playwright, PostgreSQL, Supabase, Keycloak, Terraform, Cloudflare, Python, FastAPI, MCP, SQLite, Prisma, Node.js, AWS, C++, WCF, SymmetricDS, Clean Architecture, DDD

CERTIFICATIONS

Arcitura Certified SOA Architect

Arcitura Education

Microsoft Technology Associate

Microsoft (MCPS - Software Development)

EDUCATION

Central Connecticut State University — New Britain, CT

2016

*Bachelor of Science, Computer Science — Minor: Management Information Systems***Naugatuck Valley Community College**

2012

Associate of Science, Computer Science
